- Both Textbooks & Workbooks are available.
- Free Teacher's Guides and Answer Keys are provided.
- QR Quiz, an interactive exercise that stimulates students' interests is included.
- Enhancing students' creative and critical thinking skills

MATHEMATICS
Mathayom 1-3

Comprehensive   Covers all the chapters required by the curriculum.

Organized   Various exercises planned systematically to help students to acquire the skills taught.

Functional   Provides notes to introduce students to mathematical concepts and gives examples to guide students on the application of the concepts.

Examination oriented   Offers plenty of exercises for students to assess their own understanding of mathematical concepts and to boost their confidence to face examinations.

Visual Info   Presents short notes in diagrammatic form to help students do quick revision.

Critical & Creative   Stimulates critical and creative thinking among students and develops intelligent students.

Textbook

➲ Flashback
Helps students to recall the basic concepts for the chapter.

➲ Learning Outcomes
States the learning objectives of each chapter.

➲ Examples
Consists of sample questions with complete and comprehensive solutions.

➲ Quick Revision
Consists of brief and concise notes that summarise the concepts learnt in each chapter.

➲ Math Online
Provides direct access to useful websites by scanning the QR codes given.

➲ Hot Tips
Points out the important tips for students to take note.

➲ Test Yourself
Evaluates the understanding the students for every subtopic.

➲ QR Quiz
Provides direct access to the interactive exercises by scanning the QR codes given.

➲ Common Mistakes & The Truth
Points out the common mistakes that students make and the correct ways of answering the questions.

➲ Mathematical Terms
Lists the important mathematical terminologies of each chapter.

➲ Mastery Practice
Provides subjective questions covering the entire learning outcomes of each chapter.

➲ Notes
Consists of short notes, explanations and examples of calculations with solutions.

Workbook

➲ Exatmple
- Appears at the beginning of each new exercise.
- Helps to strengthen students' understanding of the concepts learnt.

➲ CCTS
States the types of Critical and Creative Thinking Skill (CCTS) tested by each question.

➲ Facts and Formulas
Provides a summary of the important points in each chapter.

➲ Spot the Errors
- Helps students to identify common mistakes they do.
- Allows students to correct the mistakes.

➲ Enrichment Exercises
- Appears at the end of each chapter.
- Consists of objective questions covering the entire learning outcomes of each chapter.
